### WORK EXPERIENCE

#### **Graphic Designer**

Nu Skin Enterprises  
Provo, Utah  
September 2016–Present  
Part of the in-house design team that creates all consumer-facing design, including packaging, microsites, emails, social media assets, and event branding. This work is used worldwide for the brand's beauty and wellness products.

#### **Graphic Design Intern**

Thinkso Creative, LLC  
New York, New York  
May 2016–Aug 2016  
Thinkso's mission is not only to provide beautiful work for their clients, but to have deep conceptual thinking as a basis for design decisions. As an intern here, I was able to participate in a variety of projects with clients ranging from financial services companies to a fund for placing the first statue of a woman in Central Park. The projects I worked on differed in creative freedom and in the size of a roll I played, providing a great variety of experience.

#### **Teacher's Assistant**

BYU Design Thinking Course  
Provo, Utah  
Feb 2016–Apr 2016  
Assisted graphic design pre-major students in developing conceptual thinking habits as a basis for their work. Critiqued and graded assorted projects.

#### **Graphic Designer**

BYU Campus Life Web Consulting  
Provo, Utah  
Nov 2014–Jan 2016  
Redesigned academic websites for the university to have a more contemporary aesthetic and easier navigation, fueled by user research. I also designed publicity to spread awareness of and excitement for a student exercise program.

#### **Gate Agent**

Delta Air Lines  
Salt Lake City, Utah  
May 2014–May 2016  
Worked seasonally, serving passengers and crew in all activities that take place at the gate—duties such as boarding the plane, checking bags, and answering questions. My purpose was to ensure that planes departed on time and that all customers had the best experience possible, regardless of circumstance.
